INTRODUCTION AND ACKNOWLEDGEMENTS

The purpose of this publication, which is published on a quarterly basis, is to present statistical information of a socio-economic nature in order to meet the needs of a wide variety of governmental and private users.

A computerized system is responsible for producing the photo-ready copy of the Review. The information in this publication is derived from three principle sources – Statistics Canada, the Manitoba Bureau of Statistics, and various other provincial government departments and agencies. The assistance of all contributors to the Review is gratefully acknowledged.

Users seeking further technical information concerning coverage, reliability, methodology, etc., are advised to consult the original source, found at the bottom of each table. Users with suggestions for improvement or comments, please contact the Manitoba Bureau of Statistics at (204) 945 – 2985 or write the address below.

GENERAL PRINCIPLES FOR THE MANITOBA STATISTICAL REVIEW

The following are the general principles under which this publication operates.

1. General Statistics Only

   Only statistics of general public interest are included in the Review. Specific sectoral statistics should be found in various Manitoba departmental or Statistics Canada publications. The appearance of data in the Review does not necessarily reflect acceptance of the data by the Manitoba Bureau of Statistics. On request, the Bureau will provide a statement regarding the reliability of data appearing in the Review.

2. Comprehensive and Timely

   The Review contains sections on demographic and labour force data; economic and price statistics, financial and taxation statistics; sectoral statistics (agriculture, forestry, fishing and trapping, manufacturing, mineral, energy, construction and housing, and retail trade); social statistics (health and hospital, education, corrections, and welfare); and governmental statistics. It is published three months after the end of the quarter for which data is available.

3. Special papers on Current Economic and Statistical Issues

   The Manitoba Statistical Review contains special papers each quarter dealing with current economic issues or statistical developments. The papers are general in nature and are written for layperson comprehension. The views expressed by the author(s) of the special articles published in the Manitoba Statistical Review are their own and do not necessarily reflect those of the Department of Industry, Trade and Tourism, or the Government of Manitoba.

4. Manitoba Bureau of Statistics Data Integrated into the Review

   The Manitoba Bureau of Statistics current surveys have been integrated into the Review, e.g., prices survey of food. In addition, Tables 19, 20 and 21 provide summary information on the provincial economy from the Manitoba Provincial Economic Accounts.

TABLE 5 - PUBLIC CAPITAL INVESTMENT BY PROVINCE

PRIVATE AND PUBLIC INVESTMENT – REVISED INTENTIONS 2000

Statistics Canada has released revised estimates of capital investment intentions for Canada and the provinces for 2000. Generally speaking, the revised 2000 estimates for Manitoba are better than those originally released at the end of February.

	2000 Revised Intentions ($Millions)	1999 Preliminary Actual ($Millions)	Percent Change
Total Capital	5,099.8	5148.8	-1.0
Private Capital Investment	4,078.0	4,029.8	1.2
Public Capital Investment	1,021.8	1,119.0	-8.7
Manufacturing Investment	587.0	549.7	6.8

Total new capital investment for Manitoba is now expected to reach $5.1 billion in 2000, up $206 million from the original estimate of $4.89 billion. That still leaves us down 1.0% from 1999 investment levels, but it represents considerable improvement over the original estimate of a 5.0% decline for this year. Total capital investment at the national level is now expected to rise by 5.3% this year.

The 2000 outlook for private sector investment in Manitoba has also improved, having been revised upward by $122.4 million, to a total of $4.08 billion. Much of that improvement comes from higher than anticipated investment in mining and finance and insurance. Manitoba private sector capital investment is now expected to grow by 1.2% in 2000 over 1999, better than the 1.8% decline originally forecast for this year. Nationally, private capital investment should grow by 5.0% in 2000.

Increased mining investment is one of the strongest growth areas for Manitoba in 2000 compared with 1999. The mining industry is now expected to invest $265.9 million in 2000, a $141.5 million increase over last year. Other strong performers in 2000 include finance and insurance (up $37.7 million), housing (up $15.4 million) and wholesale trade (up $15.3 million).

Manufacturing investment will also rebound this year. Total capital investment by Manitoba's manufacturing sector should grow by $37.3 million (6.8%) in 2000 after two straight years of decline in 1998 and 1999. Our 6.8% growth rate for this year is stronger than Canada's anticipated 3.4% gain and ranks fifth place provincially.

Public sector capital investment in the province is now expected to total $1.02 billion this year, up $83.6 million from the original estimate for 2000. Most of that increase is attributable to higher spending on education and on health care and social assistance. Despite that upward revision for 2000, total public sector spending in Manitoba is still expected to be $97.2 million (-8.7%) lower than last year.

Public administration by the line departments of government (federal, provincial and municipal combined) accounts for $20.2 million of the expected decline. The rest of the decline is mostly in publicly owned enterprises at all three levels of government – everything from less capital spending on public transit to small declines in areas like Manitoba Hydro and the Royal Canadian Mint. The completion of casino renovations in Winnipeg last year is also part of the overall public enterprises decrease.

NOTE: 1. IN JANUARY OF 1999 STATISTICS CANADA INTRODUCED A NEW SYSTEM FOR CLASSIFYING LABOUR FORCE SURVEY DATA BY INDUSTRY CALLED THE NORTH AMERICAN INDUSTRY CLASSIFICATIONS SYSTEM (NAICS). HISTORICAL DATA BY INDUSTRY BACK TO JANUARY 1987 WAS REVISED ON THE BASIS OF THE NEW CLASSIFICATION SYSTEM. THIS TABLE WAS AFFECTED BY THIS CHANGE AND CONTAINS THE REVISED DATA.
2. ESTIMATES PRESENTED MAY HAVE VARYING DEGREES OF RELIABILITY. FOR FURTHER INFORMATION THE USER IS ADVISED TO CONSULT THE ORIGINAL DATA SOURCE.

DATA SOURCE: STATISTICS CANADA CATALOGUE NO. 71-001.
